Annual Citywide Risk Assessment and Audit Work Plan

FISCAL YEAR 2013

JULY 2012

Office of the City Auditor City of San Diego

THE CITY OF SAN DIEGO

DATE: July 5, 2012

TO: Honorable Members of the Audit Committee

FROM: Eduardo Luna, City Auditor

SUBJECT: Annual Citywide Risk Assessment and Audit Work Plan – Fiscal Year 2013

Attached is the Annual Audit Work Plan proposed by the Office of the City Auditor for Fiscal Year 2013. This report will be presented at the July 9th Audit Committee meeting for your review and approval. The list of 25 proposed audit assignments for FY 2013 includes performance audits regarding various City departmental activity groups and other audit projects and activities.

The Audit Work Plan was developed by considering the required audits mandated by the City Charter and the San Diego Municipal Code, results of the FY 2013 Citywide Risk Assessment, and perspective from City management, City Council, and IBA staff. We designed our work plan to address what we considered to be risk areas, while limiting the scope of work to what we can realistically accomplish with the staff resources available.

Respectfully submitted,

Eduardo Luna City Auditor

Mission Statement

The mission of the Office of the City Auditor is to advance open and accountable government through accurate, independent, and objective audits and investigations that seek to improve the economy, efficiency, and effectiveness of City government.

Introduction

Generally Accepted Government Auditing Standards and the Institute of Internal Auditors' Standards encourage the chief audit executive to establish a risk-based approach to determine the priorities for City Auditor activities. The Auditor's Office has completed a FY 2013 Citywide Risk Assessment as a means to help identify, measure, and prioritize the City's potential audits based on the level of risk to the City. Each Activity Group's risk score was considered when selecting audits for the City Auditor's FY 2013 Audit Work Plan.

Audit Resources

The FY 2013 proposed budget for the Office of the City Auditor includes twenty staff members at a budgeted cost of approximately \$2.8 million for salaries, fringe benefits, and non-personnel expenses such as office equipment, training and supplies. The City Auditor's FY 2013 budget also includes costs for the City's Comprehensive Annual Financial Report (CAFR) audit that will be conducted by an outside independent audit firm. The City Auditor administers the CAFR audit contract. During FY 2013, the Office of the City Auditor will have 17 Performance Auditors to conduct audits and investigations with an estimated 23,545 audit hours available to perform audits. The estimated audit hours available were calculated as follows:

Calculation of Estimated Audit Hours Available for FY 201	3
One full time equivalent (FTE) Performance Auditor:	<u>Hours</u>

Note: Audit supervision and administrative hours for the City Auditor, Assistant City Auditor and one Executive Assistant are not included.

¹ Audit hours were reduced to reflect anticipated vacancies and for auditors performing administrative activities.

Performance Audits and Other Audit Activities

The City Charter requires the Office of the City Auditor to conduct all of it audits under Government Auditing Standards, and there are three main types. They are financial audits, performance audits and attestation engagements. The City of San Diego hires an outside independent audit firm to perform the City's financial statement audit of the City's CAFR. The City Auditor conducts performance audits of the City's departments, agencies and their activities. Under Government Auditing Standards, performance audits provide objective analysis so that management and those charged with governance and oversight can use the information to improve program performance and operations, reduce costs, facilitate decision making, and contribute to public accountability. A performance audit is a dynamic process that includes consideration of applicable standards throughout the course of the audit. Performance audit objectives may vary widely and include assessments of program effectiveness, economy and efficiency, internal controls, compliance with laws and regulations, and prospective analysis. Examples Performance Audit objectives may include but are not limited to:

- Assessing the extent to which legislative, regulatory or organizational goals and objectives are being achieved;
- Analyzing the relative cost-effectiveness of a program or activity;
- Evaluating whether the audited entity is following sound procurement practices;
- Assessing the reliability, validity, or relevance of performance measures concerning program effectiveness and results, or economy and efficiency;
- Assessing internal controls designed to provide reasonable assurance of achieving effective and efficient operations, and reliable financial and performance reporting;

 Determining if program activities are in compliance with laws, regulations, contract provisions, grant agreements and other requirements.

The Office of the City Auditor also performs some attestation engagements based on agreed-upon procedures, which consists of specific testing procedures performed on a subject matter.

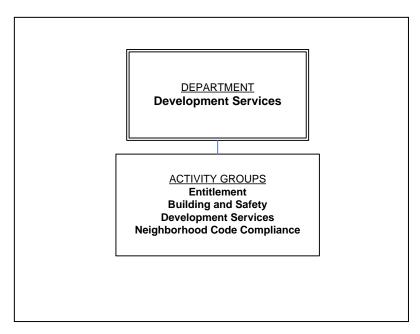

Additionally, we will perform other non-audit services such as investigating complaints received from the City's Fraud Hotline regarding allegations of fraud, waste and abuse. We will following perform investigations the procedures recommended by the Association of Certified Fraud Examiners for allegations of improper financial activity, fraud, waste and/or abuse that appear to be material in nature. For any material internal control weaknesses that are identified during the investigation of hotline complaints, we may conduct an audit or review to determine the extent of the internal control weaknesses identified provide appropriate recommendations to correct the deficiencies found.

Citywide Risk Assessment - Fiscal Year 2013

Risk assessment is a process of systematically scoring (or rating) the relative impact of a variety of "risk factors." A risk factor is an observable or measurable indicator of conditions or events that could adversely affect the organization. Risk factors can measure inherent risks (such as a large organizational structure) or organizational vulnerability (such as level of cash and assets easily converted to cash). The first step in creating the City's risk assessment model was to define the audit universe. The audit universe is a listing of all of the City's significant Auditable Units (all of the City's potential audits that could be performed). We created a list of City Departments and significant City Agencies and their primary Activity Groups as the Auditable To accomplish this we utilized the City's FY 2013 proposed budget data from SAP and the component unit information in the City's most current financial statements. We have reduced the number of Activity Groups from prior risk assessments by combining together some activities within Departments in order to target more areas of risk using our existing resources, address cross-cutting issues which impact multiple units within a department, and create efficiencies in conducting future audits of Activity Groups. However, a Department may still be broken out into several Activity Groups as in the example shown in Exhibit 1.

Exhibit 1

Sample Department and Activity Groups

The next step in creating the risk assessment model was to identify and rank the major risks associated with each of the City's significant Auditable Units (Activity Groups).

To achieve this, a management questionnaire was developed, which measured a variety of "risk factors" (See Attachment A – Management Questionnaire).

The questionnaire used had ten measurable risk factors as follows:

- 1. Interface with the external public.
- 2. "Mission critical" nature of activity group for the department to achieve its goals and objectives.
- Support of internal operations is considered critical to achieving the objectives of other department's mission or goals
- 4. Failure to achieve the activity group's mission or goals leads to public displeasure or negative media coverage.
- 5. Level of cash or cash convertible nature of activity group's transactions.
- 6. Activity group's tracking and use of activity performance metrics.

- 7. Regulation effect or impact on operations.
- 8. Number of Budgeted Employees (FTE).
- 9. Budgeted Annual Revenues.
- 10. Budgeted Annual Expenses.

In FY2012, a management questionnaire was completed for each of the City's Auditable Units to determine a risk score of 0 (low), 3 (medium low), 5 (medium), 7 (medium high), or 9 (high) for each of the ten risk factors listed above. Audit staff reviewed the questionnaires and adjusted some scores based on professional judgment. Also, weights were assigned to each factor based on relative importance as determined by input from audit staff (See Attachment B – Calculation of Weights Used for Risk Factors).

The final step in completing the Citywide Risk Assessment was to calculate the total risk score for each Auditable Unit (list of the potential audits) in order of highest risk score to the lowest by tabulating the information gathered from the questionnaires and applying the weights assigned to the risk factors. We then calculated the overall risk score for each Activity Group, by stratifying the resulting rating in descending order by tenths, and identifying the top 30 percent (or those ranking 10, 9, or 8) as High Risk. The next 40 percent (ranking 7, 6, 5, 4) were identified as Medium Risk, and the bottom 30 percent (score of 3, 2 or 1) or risk scores were ranked as Low Risk (See Attachment C – Citywide Risk Assessment).

¹ We conducted additional surveys and updated the risk assessment to reflect material changes for FY2013.

Interpreting Risk Assessment Results

The weighted scores for ten risk factors were tabulated for each significant Departmental Activity Group identified Attachment C – Citywide Risk Assessment, and the risk scores were considered when preparing the Audit Work Plan - FY 2013 that follows. The Departments and Activity Groups with a high risk score merely indicates that the services they provide or the functions they are responsible for are by nature a high risk activity because of such factors as having a large amount of expenditures and revenues, having a high level of liquid assets such as cash, or a high degree of public interest. A high risk score does not mean that an Activity Group is being managed ineffectively or that it is not functioning properly. High risk areas may indicate opportunities to address activities which are mission critical, provide substantial support for other internal City operations, reflect high public need, or consume significant financial resources. The overall results identify the activities with the highest risk factors that may warrant and benefit from additional management action or audit services.

Audit Work Plan (July 2012 through June 2013)

In FY 2013, we are continuing seven audits that were initiated in the previous fiscal year, and we are planning to undertake complex audits that will require additional audit resources. The following Audit Work Plan includes our scheduled performance audits as well as additional audit activities. Included is the proposed audit objective for each assignment and estimated audit hours. We will perform an in depth risk assessment on each activity group selected for audit to ensure our audit objective covers the areas of highest risk for that activity group and adjust the audit objective, procedures, and hours accordingly. Our estimated audit hours are based on our knowledge of the complexity of the activity groups selected for audit. The actual hours may vary based on the audit scope determined by the detailed risk assessment for each engagement, as well as the extent and complexity of findings revealed during audit testing.

Additions to Audit Work Plan

Requests to add audits to the Audit Work Plan during the fiscal year will be presented to the Audit Committee with a City Auditor analysis of the impact the proposed audit will have on the other audits on the Work Plan. Audit priority will be given to those requests that pertain to the health and safety of citizens, potential for significant financial savings or increased revenues, and issues of integrity.

San Diego's budgeted sworn and civilian positions have been reduced by 157.50 FTE and 193.25 FTE, respectively. Sworn vacant positions accounted for the reduction, while civilian cuts resulted in the reduction of 105.25 FTE vacant positions, and 88.00 FTE filled positions. During this time, concerns were raised regarding the impact of civilian reductions on administrative and case back-log, police response times, overtime, permit and licensing revenue, and the operational impact of taking sworn officers off patrol to perform duties previously done by civilians at a lower cost. In FY 2013, the budgeted expenditures are \$415 million, \$48.8 revenues, and 2,513 FTEs.	2,500	Not Started

Office of the City Auditor Annual Risk Assessment Management Questionnaire FY2013

1. To what extent does your activity group interface with the external public?

<u>Description / Purpose</u>: Assess how frequently your activity group works/interacts directly with the public or City residents. Little to no interaction is not a negative indicator, but rather an indicator that your activity group serves internal customers – internal customer interaction is addressed in question 3.

		Risk
		Score
a.	None.	0
b	Rarely or infrequently.	3
c.	Monthly to quarterly level of interface.	5
d	Weekly level of interface.	7
e.	Continual interface with the external public several times daily or more.	9

2. To what extent is your activity group considered to be "mission critical" for the department to achieve its goals and objectives?

<u>Description / Purpose</u>: Ascertain the significance that your activity group plays in <u>your</u> <u>department's</u> overall mission relative to other activity groups. Little to no contribution is not a negative indicator, but rather an indicator that your activity group may provide services and be focused on other internal customers.

a.	No contribution towards the department's goals / objectives.	0
b.	Minimal contribution towards attaining the department's goals and objectives.	3
c.	Moderate contribution towards attaining the department's goals and objectives.	5
d.	Significant contribution towards attaining the department's goals and	7

3. To what extent does your activity group support internal operations or are considered critical to achieving the objectives of <u>other</u> entity's/department's mission/goals?

<u>Description / Purpose</u>: Determine the level of support and role your department plays in helping other departments achieve their overall mission. This question identifies the interconnectedness that one activity group has with other internal operations.

a.	No support provided to other operations / departments.	C
b.	Infrequent (i.e. annual) support provided to other operations / departments.	3

- c. Periodic (i.e. monthly) support provided to other operations / departments.
 d. Regular (i.e. weekly) support provided to other operations / departments.
 e. Ongoing support provided to other operations / departments every day.
 9
- 4. To what extent would failure to achieve your activity group's mission or goals lead to public displeasure or negative media coverage?

<u>Description / Purpose</u>: Assess how the activity group's level of visibility to the public, public interest in the group's activities, interest of the media, or other public safety related factors would lead to an increased potential loss or embarrassment if the activity group did not perform its critical mission or goals. This could also be called the newspaper test – how much negative press or public disapproval would a failure cause?

- a. No risk of loss or embarrassment.
 b. Low risk of loss or embarrassment.
 c. Moderate risk of loss or embarrassment.
 d. Significant risk of loss or embarrassment.
 e. Very high risk of loss or embarrassment.
 9
- 5. To what extent is there potential loss due to the cash or cash convertible nature of your activity group's transactions?

<u>Description / Purpose</u>: Assess the risk associated with cash or cash-convertible assets. Be sure to factor in the amount of cash collected as compared to business transacted by other means (credit card, electronic funds transfer, invoice, journal entry, etc), as well as risks associated with the volume, type and nature of existing assets that are susceptible to theft such as equipment, supplies and inventories.

a. None.
 b. Minimal amount of cash transactions or assets are difficult to convert to cash.
 c. Moderate amount of cash transactions or assets can be converted to cash with some difficulty.
 d. Nature of operations is primarily cash or assets are easily converted to cash.
 e. Fully cash or cash equivalent operations.

6. To what extent does your activity group track activity performance / metrics?

<u>Description / Purpose</u>: *Determine the extent to which your activity group captures, assesses, and responds to performance measurement data.*

We continuously capture performance metrics on key operations, assess
 a. achievement of goals and trends in the information, and adjust operations to improve upon our performance in all key areas.
 We track performance information in all key operations, assess and use data to
 b. improve operations, but we do not engage this process in a continuous, fluid manner.
 c. We track performance information in all our key operations and may assess data to some extent, but we do not use data to improve performance in all key areas.
 d. We collect some performance information, but the information does not account for all our key operations or we do not assess the data.

7. To what extent do regulations affect or have impact on operations?

e. We do not track performance measures or metrics.

<u>Description / Purpose</u>: Assess how government regulations (federal, state, or local) impact your activity group operations and the exposure to sanctions and potential penalties for noncompliance. Please be sure to factor in the complexity, volume, and change in regulations, including ordinances, municipal codes, administrative regulations, MOUs, federal and state laws and regulations, contract conditions, and grant provisions that pertain to your department.

a. None.
b. Few regulations and little risk of noncompliance.
c. Risk of either substantial regulations or significant penalties.
d. Complex, voluminous, or frequently changing regulations with significant
e. Heavily regulated with serious consequences for noncompliance.
